

SecuGen Releases the Ultra-Slim Hamster Pro 10 and U10, an FBI-Certified OEM Fingerprint Sensor, at ISC West 2018

SANTA CLARA, Calif., April 5, 2018 (SEND2PRESS NEWSWIRE) – SecuGen, a world leading optical fingerprint device and technology vendor, is pleased to announce the release of the Hamster Pro™ 10 and U10 sensor. Both the Hamster Pro 10 and the U10 sensor inside of it are FBI certified for PIV and Mobile ID FAP 10 applications.

Send2Press® Newswire

The Hamster Pro 10 (<https://secugen.com/products/hamster-pro-10/>) features the U10 sensor at its core and is supported by SecuGen's free SDKs that operate on Windows, Linux, and Android. The U10 sensor is SecuGen's smallest sensor to date measuring only 13 mm thick and is based on patented technologies. The U10 sensor is therefore, suitable for embedding into virtually any device including laptops, ATMs, access control machines, and even small hand-held devices.

The ultra-slim Hamster Pro 10 itself is very compact, attractive, and

economically priced for large scale deployments. The Hamster Pro 10 joins SecuGen's growing product portfolio of high quality and rugged USB fingerprint readers that include the affordable Hamster Pro as well as SecuGen's flagship Hamster Pro 20.

Dan Riley, VP of Engineering for SecuGen stated, "Since we started the company 20 years ago, we have been pushing optical fingerprint technology to its limits by making the sensor smaller and smaller while maintaining high image quality. With the U10 sensor, we have reached a critical milestone. This new sensor is small enough to be embedded into a laptop or hand-held device. Our team has done a masterful job with these products."

"As always, we are listening to our partners and responding to their requirements," added Won Lee, CEO of SecuGen. "They have been asking us for a smaller and less expensive sensor, and we are pleased to deliver the breakthrough Hamster Pro 10 and U10 sensor as a direct response to their expressed needs."

SecuGen will showcase the Hamster Pro 10 and U10 in booth # 8131 at ISC West 2018, the Sands Convention Center in Las Vegas, from Wednesday April 11 through Friday April 13, 2018.

About SecuGen:

SecuGen Corporation is the world's leading provider of advanced, optical fingerprint recognition technology, products, tools and platforms for physical and information security. SecuGen designs and develops FBI-certified fingerprint readers and OEM components, developer kits and software, including NIST/MINEX-compliant algorithms.

Known for high quality, ruggedness, and price-performance, SecuGen's products are used across a wide range of industries, market segments and applications around the world including insurance and banking, medical and health care, point of sale, logical and physical access control, mobile devices, AFIS and law enforcement, and national ID and voter ID projects.
