COMPASSIONATE, PROFESSIONAL HELP CLEANING AND EMPTYING A FAMILY HOME AFTER THE LOSS OF A LOVED ONE

Send2Press® Newswire

For more than a decade, the company has been helping families in the metropolitan areas of New York City, Chicago and most recently South Florida, make growing older easier and less stressful through senior safe living home improvements, relocation to assisted to living and dissolving a family’s home after the loss of a loved one.

With the increase in COVID-19 deaths in recent weeks, the company’s Nothing Forgotten arm in New York City has been hard at work helping families that have suffered the loss of a loved one, by providing compassionate,

professional help cleaning and emptying family homes and apartments. For Silver Solutions, the inspiration for the creation of this infographic, was to provide families impacted by the pandemic with a simple guide outlining the most immediate priorities for the home while also honoring the legacy of their loved ones.

“These are unprecedented times in every way and Silver Solutions work helping families has never been more important and urgent. Among the big changes we’re seeing during this pandemic are families seeking our help within the first 30 days after the loss of a loved one instead of the usual 60-90 days, especially where it involves a rental apartment or assisted living community,” notes Dan Lagani, Silver Solutions Co-Founder and CEO.

“Our work with seniors and their families over the past decade has help us create a professional and compassionate process that makes it easier for families to ready the home for sale while carefully curating all that made their loved one so special,” says Laura Olivares, Silver Solutions President and Co-Founder.
