The integration with Reggora's end-to-end appraisal platform better enables LOs and real estate partners to collaboratively support borrowers through the entire homebuying process. From the SimpleNexus app, LOs can receive real-time appraisal status updates, share appraisal information with borrowers and real estate agents, and receive appraiser messages.

"A core value at SimpleNexus is love for the customer; for that reason, we are committed to forging technology partnerships that deliver real ROI for our users," said SimpleNexus COO Ben Miller. "Our integration with Reggora

saves LOs from having to toggle back and forth between multiple systems to manage appraisals, putting time back in their day to build relationships and facilitate a smooth closing experience.”

“Appraisal scheduling and management is a common source of delays to the closing process,” said Reggora CEO Brian Zitin. “Reggora’s end-to-end appraisal platform streamlines the appraisal experience—from scheduling, to payment, to report delivery. Lenders benefit from faster turn-around times and shorter time to close.”
