

Structured Settlement Factoring Company Launches New Website to Better Serve Customers

LOS ANGELES, Calif. and NEW YORK, N.Y., May 22, 2020 (SEND2PRESS NEWSWIRE) – Strategic Capital has launched a new website (<https://www.strategiccapital.com/>). With this newly revamped web presence, they give people the opportunity to learn more about how they can maximize payout options for structured settlements, lottery winnings, casino winnings, and more.

Send2Press® Newswire

They aim to help individuals and families learn not just about their service offerings, but also about the prospect of selling payments from any of the aforementioned products. On their new website, people can educate themselves about their options and what to expect of the process.

Strategic Capital has bought structured settlement payments, lottery winnings, investment annuity payments, IGT casino winnings, and other future payments for well over two decades. They are in a unique position to help their customers maximize their winnings and settlement payouts through well-structured transactions.

In fact, not only does the Strategic Capital team have years of experience buying structured settlement payments, but they also come highly recommended from some of the top lawyer associations across the country, including the Kentucky Justice Association, New Jersey Association for Justice (NJAJ), Tennessee Trial Lawyers Association (TTLA), National Association of Trial Lawyer Executives (NATLE), and the Consumer Attorneys of California (CAOC).

Micha Star Liberty, CAOC President 2020, says, "Strategic Capital has been thoroughly vetted by the board of CAOC and found to operate with integrity." And Lynne M. Kizis, Esq., NJAJ President 2019, adds, "Unlike other firms in the industry, they are known for treating, with care and fairness, those with severe financial challenges arising after their case has settled."

With offices in New York and Los Angeles, Strategic Capital has originated over \$1.5 billion in purchases. They have been buying lottery prize payments, investment annuity payments, [structured settlement payments](#), and other future payments since 1994. Strategic Capital helps their customers by reviewing their finances and upcoming expenses. In this way, Strategic Capital is able to put together quotes and value calculations for customers to review. If the customer decides to move forward with selling some or all of their payments, Strategic Capital organizes their documents and sends them to the court. Once the application has been approved, they wire money to the customers directly.

Anyone interested in learning more about the services Strategic Capital offers and the processes involved with each can now find that information on their newly launched website: <https://www.strategiccapiatl.com/>
