

Sunpro Solar Expands to California to Offer Affordable Solar

MANDEVILLE, La., July 27, 2021 (SEND2PRESS NEWSWIRE) – Sunpro Solar, one of the top two leading solar companies in the U.S., announces expansion into Southern California, with its operations beginning in Murrieta, California. Sunpro Solar’s expansion to Southern California will help meet the demand for lower electricity bills and create statewide renewable energy jobs.

Send2Press® Newswire

“With California paying some of the highest energy rates in the country, we are expanding our presence there to offer residents affordable solar power and battery storage to help decrease their energy costs and manage power during outages,” said Sunpro Solar Founder and CEO, Marc Jones. “We are excited to bring best-in-class customer service, solar products, and renewable energy jobs to Southern California.”

California homeowners interested in reducing their energy bills can have Sunpro Solar help them not only purchase and install their home solar power and battery backup systems but can also enhance savings with energy-efficient upgrades.

Sunpro Solar customers in Anaheim, San Diego, and surrounding areas will see an increase in their property value, have the chance to opt-in to utility net metering programs, and take advantage of the 26 percent Investment Tax Credit (ITC) for solar energy offered by the Federal Government.

“Our expansion into California is a milestone moment for our company to offer customers quality service and affordable solar options coast to coast,” said Gregg Murphy, Sunpro Solar’s Chief Revenue Officer. “The products and services we offer are right in line with those who want to help protect the environment and break free from record-high power costs.”

Sunpro Solar will help California customers navigate federal, state and utility incentives and tax credits if they decide to go solar. For more information about opportunities and incentives for California solar customers, schedule an appointment with a Sunpro Solar Specialist [here](#).

Sunpro Solar’s growth into California expects to create a significant amount of new jobs in renewable energy for the state. Sunpro Solar plans to hire sales consultants, operations support positions, and installation teams in order to serve customers in the state of California.
