

Synergy Online Registration Sees Rapid Adoption Amongst Edupoint Partner Districts

MESA, Ariz., Aug. 25, 2015 (SEND2PRESS NEWSWIRE) – Edupoint® Educational Systems, a leading student information system (SIS) provider for the national K-12 market, confirms the success of its Synergy® Online Registration solution as early adoption rates among the company's installed user base continues to grow. For the upcoming school year, Synergy Online Registration was available to more than 760,000 students and parents to streamline the school registration process, resulting in reduced operational costs and employee hours for districts by utilizing a solution that is fully integrated with their existing Synergy® SIS solution.

"We are pleased to see the early success that Synergy Online Registration is providing our partner districts," says Rob Wilson, Edupoint's President and Chief Innovation Officer. "This results from our commitment to provide technologically advanced solutions that enable districts to manage student data from registration to graduation from a single, fully-integrated education platform. We look forward to further adoption of Synergy Online Registration among our existing partner districts and to its continued adoption as we welcome new districts to the Edupoint family."

As a fully integrated component of the Synergy Education Platform, Synergy Online Registration simplifies school registration for both parents and administrative staff. Parents register students directly from the ParentVUE® portal they already use on a regular basis to view student assignments, test scores, and other classroom happenings – with the ability to upload verification documents to eliminate a trip to the district office.

For administrators, Synergy Online Registration eliminates the need for costly printed packets and automates the processing of registration data with dynamic forms that personalize the handling of each applicant with built-in address verification, filters, and flags to accelerate the review and decision-making process.

About Edupoint Educational Systems:

For more than thirty years, the leadership of Edupoint Educational Systems has provided well designed, technologically advanced student information management systems that empower all K-12 stakeholders with the tools they need to improve student achievement. The Synergy® Education Platform is a suite of integrated solutions that includes Synergy® SIS, the most powerful K-12 student information system available today, and Synergy® Special Education, a comprehensive special education data management system.

More than a data management tool, Synergy is a collaborative environment that facilitates improved communication between educators, administrators, parents and students resulting in better instructional decisions at all levels.

To learn why thousands of schools across the country use the Synergy Education Platform to manage more than 3 million students, visit <http://www.Edupoint.com/>.
