

Tattoo Studio Hosts the First New Patented Non-laser Tattoo Removal System in Minnesota

FARIBAULT, Minn., July 22, 2015 (SEND2PRESS NEWSWIRE) – Rejuvatek Medical, Sandy, Utah, announces the first tattoo studio in the state of Minnesota to offer the newest, patented, non-laser Tatt2Away technique for removing all colors of a tattoo. The tattoo studio Images Everlasting is currently the only tattoo studio certified to offer this revolutionary technology in the state of Minnesota.

When it comes to tattooing in Faribault Minnesota, Shawn White and Mike Quernomoen of Images Everlasting have you covered with just over 33 years in the industry combined. Art has always been a passion for Shawn, who after an apprenticeship as a teenager, went into the tattoo business at a young age. Mike, also an artist from the start, followed in the footsteps of an uncle into the tattoo business.

“You are always learning something new,” Mike said, “even after so many years in the industry.”

Shawn added, “I also like the variety and diversity of the people we see each day. The people are the best.” And in a profession where you can be wildly creative everyday and draw pictures for a paycheck, Mike and Shawn are completely suited for tattooing.

That passion, knowledge and know-how of how ink works with the skin makes them prime candidates to also be able to become a tattoo removal expert. “We had been referring people to laser removal in order to lighten inks prior to cover ups, but it always seemed we could do more,” said Shawn. Having followed Halo Jankowski of Spike TV fame and a resident artist at Black Lotus Tattoo Gallery in Maryland, both Mike and Shawn started noticing the removals and cover ups done by Tatt2Away’s Non-Laser System.

Soon after contacting Tatt2Away’s HQ, Images Everlasting has now become Minnesota’s first Tatt2Away Studio Center. “We want to offer our customers—both those in Faribault, as well as in the state of Minnesota—the best artwork they can get!” Shawn stated, “And sometimes to put a new tattoo on you need to take some off, and with Tatt2Away you can do that most effectively.”

“We focus on keeping the best services in-house and are happy to deliver to our customers the multiple options Tatt2Away’s tools give us,” quipped Mike. “Tatt2Away is the ideal, and we have it here now!” And you get exactly what you want with Tatt2Away at Images Everlasting.
