For some popular games – e.g., PUBG, Genshin Impact, Among Us, Free Fire, and Game for Peace – it has default key settings.

“Previously, Tenorshare provided you to mirror and control Android on the computer but did not offer a chance to play Android games using a game keyboard. To meet users’ needs, we decide to launch a new feature of screen mirroring software! Now Tenorshare Phone Mirror can provide all users to play

Android games on PC & Mac with game keyboard,” said Tenorshare’s CEO, while introducing the new feature.

Major Features of Tenorshare Phone Mirror

1. Allow you to play Android games with a game keyboard on a PC or Mac.
2. Mirror Android screen and display it on a bigger screen. You can also run Android Apps on Windows/Mac.
3. Using a mouse and keyboard, you can control your Android phone on the computer.
4. Multi-device mirroring & displaying Simultaneously (Up to 5 devices)
5. Record the Android screen or take screenshots directly from the computer.
6. 1-click to turn off the phone screen during screen mirroring, and reduce its battery consumption
