

Tenorshare ReiBoot Can Fix All iOS 12 Problems

NEW YORK, N.Y., Sept. 20, 2018 (SEND2PRESS NEWSWIRE) – Tenorshare has released the newest [ReiBoot 7.1.2](#), which is perfectly compatible with iOS 12 and fixes all iOS 12 update and stuck issues. Such as: an error occurred while installing iOS 12, iPhone stuck on update requested, attempting data recovery, preparing update, recovery mode, black screen, Apple logo screen, frozen or unresponsive screen issues, etc.

Send2Press® Newswire

Starting from the first iOS 12 beta, we have been testing ReiBoot on every beta version. We predicted the system stability and possible bugs in the formal version and kept improving the performance of ReiBoot to be compatible with iOS 12 perfectly. After the iOS 12 released, we tested it in dozens of iPhones and computers to prove it fully supports the new version software.

We updated the program immediately as we want our customers to get the best product.

Fix All iPhone System Problems without Data Loss:

ReiBoot can [repair iOS system](#) and fix iOS 12 problems without data loss. The

problems ReiBoot can repair has reached up to 50.
