No matter if it is a simple 4-digit passcode, 6-digit passcode or more complex custom numeric code and alphanumeric passcode, 4uKey offers the ability to remove an iPhone screen lock passcode quickly without the need for specialist skills.

Designed with a neat interface, all you need to do is connect your locked/disabled iPhone and click Start button, the software will download the IPSW file and use it to **unlock iPhone** by removing the passcode. The whole procedure completes within 5 minutes, much easier and faster than using iTunes. Now you no longer have to get into the complex operation of iTunes and bear its unexpected errors/failure in order to unlock your iPhone.

**Features of Tenorshare 4uKey:**
