

Tenorshare Releases iTransGo to transfer data from old iPhone to new without iTunes or iCloud

NEW YORK, N.Y., Sept. 26, 2017 (SEND2PRESS NEWSWIRE) – Tenorshare launches **iTransGo**, a new product designed to transfer files directly between any iOS devices; clone everything from old iPhone to a new one with one simple click. The original purpose of the software is just like the product manager said: “Make data transfer on iPhone become easier for everyone.”

Send2Press® Newswire

The launch of iTransGo really can be good news for those who recently bought a new iPhone 8/8 Plus or iPhone X. With this program, they can easily import all the files from the old iOS devices to new iPhone directly.

Being one of the featured iOS data transferring tools from Tenorshare, iTransGo offers a convenient way to share contents between different iOS devices without using iTunes or iCloud. The most amazing thing is you are allowed to select file types to transfer, making data management more flexible for users. Moreover, iTransGo also comes with lightning speed to transfer all the large files like videos and photos in seconds.

The whole transferring process is totally safe; you don't need to worry about any data loss or damage.

Key Features of Tenorshare iTransGo:

- Directly clone everything from one iPhone to another with 1 click.
- Selectively transfer specific files to save valuable time.
- Lightning-fast transfer speed: a full transfer of 128GB data can be done in 5 minutes.
- Automatically install apps and sync app data to new device after migration.
- Sync and share purchased music with different Apple IDs; no need to use iTunes.
- Intuitive interface and simple operating steps make it easy for everyone
- Fully compatible with all iOS devices, including iPhone X/8/8 Plus/7/7 Plus/SE/6s/6s Plus/6/6 Plus/5S/5c/5, iPad and iPod touch
- Support all iOS versions, including the latest iOS 11, iOS 10.3.3.
