

Tenorshare Renames its UltData-Windows/Mac Data Recovery to 4DDiG

NEW YORK, N.Y., Oct. 14, 2020 (SEND2PRESS NEWSWIRE) – Tenorshare renamed UltData-Windows/Mac Data Recovery to **4DDiG**. The change means we will do more in-depth research and development in data recovery field, thus develop a higher quality data recovery software.

Send2Press® Newswire

4DDiG means “for data dig.” The purpose of this software is for deep scanning and digging the data that couldn’t be found with normal scanning. In addition, 4DDiG has also upgraded the product interface and technology, so that users can perform excellent computer data recovery more quickly and efficiently.

Main features:

1. Easily restore all data of Windows/Mac, external device USB/SD card, external hard disk, digital camera and other devices. No matter what kind of device you have, 4DDiG makes it possible to **recover deleted files** with highest recovery rate.
2. It is suitable for a variety of application scenarios, such as deletion,

formatting, partition, virus intrusion, disk damage blue screen and black screen, etc.

3. 4DDiG supports the recovery of 1000+ data types which focus on video, photo, music/audio, RAR/ZIP and office doc. No matter what you have lost, 4DDiG is capable of [restoring deleted files Windows/Mac](#).

4. This software can restore the original visual effects of videos and photos. Using it, repairing old, deformed, blurred and other damaged images becomes easy and simple.
