Send2Press® Newswire

Fourteen-year-old Amelia Ricci goes to school every day thinking that everything is normal. Same faces. Same friends. Same boring city. Soon she discovers that something is a bit off; that a pack of recluse Tony Hawk wannabes aren't really human. But the scary part is only she can see them. She's the only one who knows their secret. Things start to get really complicated because while she's watching them, they're watching her ... at midnight, at dusk, even in her dreams.

“A delightful mixture of mythological creatures with a fresh twist set in an ordinary city with lots of funny and cool characters. If Twilight and The

Lightning Thief had a baby, it would be The Leafwing,” says F. Dominguez, Amazon’s Top Reviewer.

“THE BEST BOOK TRAILER OF 2020!” – FILM 14.

“At a time when the global pandemic seems to have no end in sight many teens are escaping; they’re reading more, specifically YA Fantasy,” says author Deborah Copeland.
