About Titan Lenders Corp.:

Titan Lenders Corp. (www.TitanLendersCorp.com) is one of a specialized few providers of mortgage back office fulfillment services, a facet of mortgage lending that includes closing, funding and post closing services. Community banks, credit unions, mortgage bankers and brokers, and warehouse line lenders use outsource providers strategically to minimize compliance risks in a time-sensitive error-averse environment. Fluctuations in mortgage lending volume also lead some mortgage lenders to outsource their entire back office operation and secure predictable "per transaction" pricing rather than maintaining an inflexible static in house staff.

Titan Lenders Corp.'s patented, proprietary web-based software Cerberyx (CBX) supports a full suite of fulfillment services, including: funding, compliance, closing, post-closing, purchase review for correspondents and warehouse lenders, trailing documents, MERS management, FHA insuring, and document management (imaging). CBX's flexible rules-based architecture allows Titan clients to define field level decision trees, priorities, checklists and process management specific to an investor product variance or a cross-investor climate.
