

Titan Lenders Corp. Expands Executive Team, Adds Matt Steck as Chief Information Officer

DENVER, Colo., April 18, 2013 (SEND2PRESS NEWSWIRE) – [Mortgage fulfillment outsource services expert](#) Titan Lenders Corp. (Titan) has brought on software development specialist, Matt Steck, as the company's chief information officer. With more than 15 years of experience in information technology, Steck will be responsible for all software development initiatives within the Titan family of companies.

Prior to Titan, Steck was a senior manager on the Business Applications Team at ServiceSource, a provider of recurring revenue management services, where he contributed to the development and support of several of ServiceSource's most critical, enterprise applications.

"Technology is an integral part of Titan's day-to-day operations, and continual innovation of the systems we use to deliver services for our clients is a mission-critical endeavor," said Titan CEO, Mary Kladde. "Matt's varied background in enterprise and ecommerce application development makes him an invaluable addition to Titan's executive team."

A fellow Mercury Companies alum, Steck has a rich history in application, process, and program development with a diverse range of companies, including Vail Resorts Management Company, Denver Public Schools and Sun Microsystems.

Steck received his Bachelor of Science degree in marketing/business from the Metropolitan State College of Denver. He also holds a Master's of Business Administration in International Business from the University of Colorado at Denver, where he also participated in a semester on international business relations with European Union-member nations through the Center for Cross-Cultural Studies in Seville, Spain. He currently resides in Lakewood, Colo.

About Titan Lenders Corp.:

Denver-based Titan Lenders Corp. (www.TitanLendersCorp.com) was originally founded to meet the mortgage industry's increasing appetite for a variable cost solution to managing mortgage closing, post closing, mortgage compliance and mortgage fulfillment processes without maintaining personnel or an investment in technology infrastructure. Today, that mission has expanded to include supporting strategic channel growth for lenders, servicers and investors evolving their businesses in an increasingly complex regulatory environment. As such, Titan's core offerings have expanded to include MERS audit services, risk management services and whole loan purchase review. Additionally, Titan has also created a correspondent lending subsidiary, Titan Capital Solutions, to support a secondary/capital market strategy specifically for the correspondent lending channel

Backing these endeavors is Titan's patented, proprietary web-based software

Cerberyx (CBX), which supports a full suite of fulfillment services, including: funding, compliance, closing, post-closing, purchase review for correspondents and warehouse lenders, trailing documents, MERS management, FHA insuring, and document management (imaging). CBX's flexible rules-based architecture allows Titan clients to define field level decision trees, priorities, checklists and process management specific to an investor product variance or a cross-investor climate.
