

Utelogy and CEI Announce Partnership for Audio Visual Control, Management and Analytics System

LOS ANGELES, Calif., Feb. 21, 2017 (SEND2PRESS NEWSWIRE) – [Utelogy](#), which makes software for control, management and analytics of audiovisual systems for business and education, has signed a strategic solution partnership agreement with [Communications Engineering Inc.](#), (CEI), a premier full service consulting, design and implementation company providing turnkey broadcast, audio visual and media IT system integration services.

Send2Press® Newswire

Utelogy is a leader in Software-Defined audiovisual (SDAV) technology for smart classrooms, conference rooms, video-conference and auditoriums. Using an open architecture, the Utelogy platform enables AV and IT departments to build much more flexibility into its class and meeting room technology for easy reconfigurations and equipment re-use. With its help-desk and remote monitoring capabilities, Utelogy also delivers operational savings.

“We are pleased to have an innovative partner like Utelogy,” said CEI President and CEO Lawrence Brody. “Like CEI, Utelogy serves clients with high expectations for their systems and facilities. This partnership brings the strengths of both companies together for a seamless customer experience.”

“CEI is a world-class consulting, design and integration firm that has

appeared in SCN's Top 50 Integrator list for the last 10 years. They're an icon in the industry and we're excited that they see Utelogy as a platform that meets their needs and the high expectations they have for their clients," said Frank Pellkofer, Utelogy's co-founder and CEO.
