Utelogy Corporation Joins the Cisco Solution Partner Program
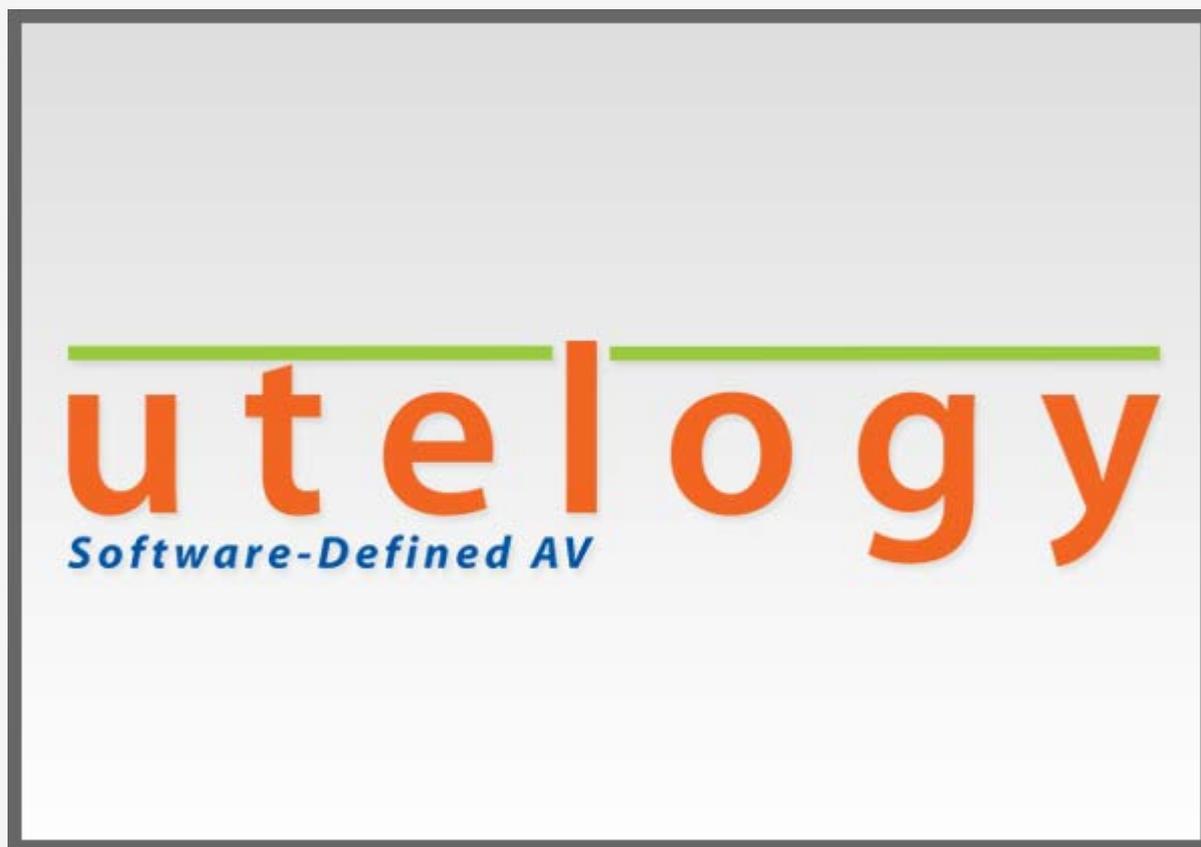

LOS ANGELES, Calif., Sept. 29, 2016 (SEND2PRESS NEWSWIRE) — Utelogy Corporation announced that it has joined the Cisco® Solution Partner Program as a Solution Partner. The Internet of Everything (IoE) continues to bring together people, processes, data and things to enhance the relevancy of network connections. As a member of the Cisco Solution Partner Program, Utelogy is able to quickly create and deploy solutions to enhance the capabilities, performance and management of the network to capture value in the IoE.

Send2Press® Newswire

"We're excited to now be a part of the Cisco Solution Partner Program to further the IoE movement with software-defined room control," stated CEO Frank Pellkofer. "The Utelogy platform further empowers IT, not only for the end-user, but also for IT integrators looking to deploy Telepresence. With everything moving to the network—phones, speakers, surveillance, building automation, putting room control on the network makes a lot of sense for integrators and end-users."

"As an IT integrator, using Utelogy, I can now deploy an immersive Telepresence room without having to bring in a third party to handle the audio/video integration," said Jason Eatmon, Vice President of Development Group Inc. "This solution allows me to further empower the IT network and deliver so much more value to my end-customers," Eatmon added.

The Cisco Solution Partner Program, part of the Cisco Partner Ecosystem, unites Cisco with third-party independent hardware and software vendors to deliver integrated solutions to joint customers. As a Solution Partner, Utelogy offers a complementary product offering and has started to collaborate with Cisco to meet the needs of joint customers.
