

# Veros CEO Darius Bozorgi Speaking at 2015 ABS Vegas Conference

SANTA ANA, Calif., Feb. 9, 2015 (SEND2PRESS NEWSWIRE) – Veros Real Estate Solutions (Veros), an award-winning industry leader in enterprise risk management, collateral valuation services and predictive analytics, is pleased to announce that president and CEO Darius Bozorgi will be a panelist at the 2015 ABS Vegas conference, the largest capital markets conference in the world.

Held February 8 – 11, this year's ABS Vegas will be at the Aria Resort & Casino in Las Vegas. Developed by leaders within the structured finance industry, the three-and-a-half day program represents a full spectrum of industry participants including investors, issuers, financial intermediaries, regulators, law firms, accounting firms, technology firms, rating agencies, servicers and trustees.

Bozorgi will participate in the panel, "Best Practices in RMBS Data Disclosure & Analytics," moderated by Tim Willis, Managing Director, RiskSpan, Inc., and including panelists Perry J. DeFelice Jr., Director, Capital Markets, 1010Data; Raj Dosaj, Senior Vice President, Behavioral Model and HPI, Black Knight Financial Services; Bill Rayburn, Chief Executive Officer, FNC, Inc.; and Ed Yale, National Sales Consultant, Equifax. The Track A session will be held in the Pinyon 1 room beginning at 5:10 p.m. on Tuesday, February 10th.

"ABS Vegas is an energizing environment for capital markets professionals," said Bozorgi. "The 'RMBS Data Disclosure & Analytics' panel will be an opportunity to learn more about industry standardization both of data elements and data disclosure across the entire secondary market since the greatest complaints are lack of transparency and access to data."

Other panel highlights will include: loan by loan cash flow analysis, improvements in deal transparency, and best methods for price discovery and bond screening.

For more information about the panel and the ABS Vegas Conference, visit: <http://www.imn.org/structured-finance/conference/ABS-Vegas-2015/Home.html>.
