

Wireless Leader 5 Bars to Bring Cutting-Edge Wi-Fi and Cell Systems to Morongo Casino Resort and Spa

IRVINE, Calif., June 7, 2016 (SEND2PRESS NEWSWIRE) – 5 Bars™ announced today it will be building and installing a state-of-the-art multi-carrier Distributed Antenna System (DAS) for the Morongo Casino Resort and Spa in Cabazon, California. Once the system is installed in the coming months, Morongo guests will experience a profound improvement in wireless connectivity and data speeds within the resort due to the extended reach and connectivity of the DAS.

Send2Press® Newswire

5 Bars will design and engineer the wireless network to exceed requirements and specification parameters, to ensure Morongo guests will enjoy five bars of cellular coverage and superior cellular capacity on their smartphones across the sprawling 44 acre resort. 5 Bars is working with all the major carriers in order to drive carrier participation.

“The new 5 Bars system will ensure that our guests have continuous cell and wireless coverage with no interruptions no matter where they are in our resort so they can instantly post on Facebook, Instagram or Snapchat when they hit their next jackpot,” said John James, Chief Operating Officer at the Morongo Casino Resort & Spa. “The new 5 Bars system will further strengthen Morongo’s cell and wireless connectivity so we can continue to provide our

guests with the very best resort experience.”

The 5 Bars team brings more than two decades of invaluable experience in deploying, maintaining and managing wireless networks.

“We believe with the right technology, leadership and dedication, high-density public venues such as casinos can experience faster and reliable wireless connectivity,” said John Clarey, CEO for 5 Bars. “With Morongo Casino Resort & Spa attracting tens of thousands of guests every day, the opportunity to demonstrate our superior capabilities and deliver this project couldn’t come at a better time.”

5 Bars offers fully managed wireless solutions, including monitoring services, RF assessments, alarming, connection surveys, analytics, remote troubleshooting, break-fix, spares, on-site repair and event support.

About 5 Bars:

5 Bars is a privately held company in Irvine Calif. that provides wireless master planning for communities, stadiums and large-scale venues through master planning network development, ownership and management. 5 Bars works with venue owners to design, build, operate, monetize and maintain state-of-the-art seamless wireless networks with world-class infrastructure while enhancing wireless connectivity. 5 Bars is a leading provider of commercial indoor and outdoor neutral host DAS, small cells and high density carrier-grade Wi-Fi networks.
